

Study program	Study cycle		III study cycle													
	Orientation: Natural and Mathematical Sciences in Education		PhD in Geography in Education													
SUBJECT																
Subject name	Geocological contents in geographic education															
Subject code	Semester	Subject status	ECTS credits	Contact hours												
GUO/310	III	Optional	10	250												
Condition																
Assigned professor	Assigned professor		Dr. Aida Korjenić, associate professor													
	Participant in study program															
Subject objectives	Geocological problems in the function of education process. Global, regional and local geocological problems in the function of education process. Incorporation of geocological problems (geogenic, cosmogenic and anthropogenic) into the subject curricula.															
SUBJECT CONTENT																
Weeks	Teaching Themes					Contact hours										
						L	C	S	PR							
1.	World geologic problems – study object					2	2	7	6							
2.	Causes of geocological problems					2	2	7	6							
3-4.	Incorporation of geocological problems into the curricula					4	4	13	12							
5.	Global significance of global geocological causes in curricula					2	2	7	6							
6.	Regional and local significance of global geocological causes in curricula					2	2	7	6							
7-8.	Consequences of global geocological problems in curricula					4	4	13	12							
9-10.	Geocological hazards and consequences and education process actuality					4	4	13	12							
11-12.	Geogenic processes and phenomena and geologic hazards					4	4	13	12							
13-14.	Cosmogenic processes and phenomena and geologic hazards					4	4	13	12							
15.	Anthropogenic geologic hazards and consequences					2	2	7	6							
Total contact hours	250	Lectures	30	Consultation	30	Seminar	100	Project	90
